THREE PIGEONS ARRIVED

THREE OUT OF THIRTEEN HOMERS REACHED MILWAUKEE.

Evidences Received by the Owners that They Passed Over Alabama, Two of Them Being Killed There.

July 30 last a flight of homing pigeons was made in this city from the top of the Blaz building, when thirteen birds were liberated with Milwaukce as their ultimate desira-

The fact that the birds were kept in cap flyity here for afteen days, owing to the had weather, which was not favorable their liberation, made the chances ve much against their successful arrival erm of Milwankee, and the sequel shows that chances operated against them very heavi for only three of the birds have made at trip to date and are now safely aneconse in the cotes of their owners

the light in eighteen days, nineteen hours and thirty-eight minutes. This, of coirs, was very slow time, but when six the circumstances are taken into consideration is a wonderful relute to the homing instinct of the carrier pigeon, for the record of My Wiedring shows that the birds drifted in their flight away over into Alabama, and it is a wonder that any of them arrived safely at all.

BESET WITH DANGERS. Could the flight of the thirteen birds have been followed closely and a record kept of their movements after leaving Houston

a very interesting story would be the result, for the occidents that delayed them and turned them from their course would

and turned them from their course would possibly have revealed the recklessness of the careless pothunters who shoot at anything that has wings, for to this latter cause must be attributed the delay of the birds on route and the losses to the fulth ful thirteen of which only three have ever been heard from.

Each pigeon had a metal band on one of its legs which contained the name and address of the owner and through this record Mr. Wedering reports that he received in formation that one of the birds was killed in Texas and two others killed in Alabams which shows the direction the birds took after leaving here.

Last year a similar flight was made of Milwaukee birds from this city and Mr. Wedring reset that one of his birds named thabe established a world's record for long distance fights, making the trip in his days, twenty hours and fifteen minutes.

The experiences of impetus, the winner of this year's flight, must have been severe for Mr. Wiedring stars; that it arrived home in a pitiable condition, but with careful retainent he hopes the bird with recover. The names of the other two birds that arrived agreed by other members of the National Federation of American Homing Pigeon Fancters, under whose auspices the flights have been made.
